PROVIDER SPOTLIGHT!

"Lilly throughout the weeks, has shown not only her knowledge and ability to interpret but has always kept a positive attitude and has provided extreme support when teaming, always keeping a journal for writing notes back and forth, always attentive and providing feedback to help our skills grow. She is very charismatic and extremely friendly! The hearing client has an accent, and the concept is foreign to us, but with her teaming and abilities, it becomes an assignment that we can accomplish and succeed at due to her support and abilities as an interpreter." - Kenny.

We LOVE receiving these kinds of messages! Lilly, please watch your email for a token of our appreciation.
